

Port and warehouse services

Port of Tolkkinen is a public private port located in Porvoo operated by Prima Logistics Ltd offering cargo handling and cargo services.

” The port **operates efficiently** and its prices are competitive.

Thanks to its central location, the port is well connected to the main industrial and logistics areas in Finland and in Russia. The distance from Tolkkinen to the Kehä III is 34 km and the Russian border is only 140 kilometres away.

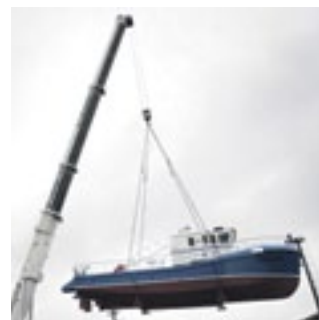

There has been a private port in Tolkkinen for over a hundred years serving mostly the sawmill industry of the area. The commercial port operations began in 2010 when Prima Shipping Group acquired the port from Stora Enso.

Services

Prima Logistics Ltd offers logistics and cargo handling services for bulk cargo, break-bulk and project cargoes. The port operates efficiently and its prices are competitive.

The port can offer short-term and long-term storage space on open-air areas and in various warehouses. The warehouses are suitable for both bulk cargo and break-bulk. The port also has a stationary mobile crane, and various mobile cranes are available flexibly.
